

Holy Bible Of Jigs

V-Bucks Jig (Free)

1. Buy any amount of Vbucks on your Xbox. I suggest buying \$100 worth of Vbucks because they always refund(yes i've done it with \$100)
2. After buying the Vbucks, go to <https://support.xbox.com/en-US/contact-us#5> and select "billing"
3. Click "get started"
4. A new "virtual assistant" window should open up. Type "I need to reverse an accidental purchase". The virtual assistant should connect you to an Xbox rep
5. Greet the rep, make sure to be kind
6. for best results. Tell them that your little brother bought Vbucks on your account while you weren't home and that you want to be refunded.
7. They will ask a few questions and tell you to put a password on your xbox for purchases then refund you.

Notes*

LEGO Jig (Free Product)

Go to www.lego.com/en-us/service

1. Join live chat
2. Greet the rep (ask how his/her day is going, etc.)
3. Go on amazon and select a large LEGO set and use this
4. Say you were building it with your son, student's, daughter, etc.
5. Say that one of the bags with the items had melted parts(1st bag, 2nd bag, 3rd bag, etc.)
YOU CAN SAY ANY AMOUNT OF BAGS BUT THE MORE YOU DO THE HARDER IT WILL BE (I recommend doing 1-2 bags)
6. They ask for shipping info and send you free LEGO's if you do this enough getting a free set should be pretty easy.

Notes*

RedBull Jig (Free Product)

1. Contact RedBull through this email: customerservice@redbullshopus.com
2. Tell them that you had a bad experience at college/high school while drinking a redbull. Some examples are that it tasted super off, made you feel sick/have you a headache, etc. MAKE SURE YOU DONT SHIT TALK
3. Don't ask for free cans, they will give them as a gift.
4. They respond within a few days-one week. They usually ask for the can back back, but you can say that it seemed to be defective can so you didn't want to get anyone else sick, etc.
5. You'll get a response saying that they'll send you free cans. Just give them your address.

Notes*

Starbucks Jig (Free Food)

1. Head over to <https://customerservice.starbucks.com/app/contact/ask/>
2. Click "in our stores"
3. Click "The beverage I ordered at a store"
4. In the message say something along the lines of how you "go to starbucks almost everyday and enjoy the service and experience". Say you and 2 co-workers were going for your daily cup of coffee but when you tasted the coffee, it tasted awful and as kind of col. Say you guys didn't want to say anything to the barista because you didn't want to leave a bad impression on here considering the fact you guys go to that starbucks almost everyday. Say it kinda ruined the beginning of your day as well.
5. Fill in the rest of the info legitimately (use a starbucks address that you live by, etc.)
6. You will get an email back from starbucks with an apology and a gift card (most likely it would be around \$10). They may ask you for some more experience, just respond accordingly. Enjoy your free Starbucks.

Notes*

If you want to keep trying to get them to reload your card, then simply use different names, emails, ip, etc. If you get the same rep he/ she may catch on and ban your cards though. Don't get too greedy!

Juul Jig (Free Product)

1. Head over to <https://support.juulvapor.com/> and click troubleshoot then click juul device. And make sure you click "Trouble producing vapor".
2. Come up with a reason why it might not be working i will give you a example but don't copy it exactly "i ordered a juul about a month ago and it not working anymore the light wont turn on at all and it won't produce vapor i've tried everything to try and fix like looking at youtube videos and etc. I threw it out a few days ago then somebody told me that you guys could help me" say something along those lines make sure to say you got rid of it or they will ask you to send it back to them.
3. Your going to need serial codes you can find them on any selling apps like ebay or get them from your friends and it's also gonna ask for a store where you bought it just say "vaping bad"
4. Then you should receive a email a few days later they will send a link to the checkout page with a code you enter at checkout to get it for free. If you fail don't try doing it to the same address or they will catch on or you could use a vpn.
5. HOW TO PASS AGE VERIFICATION
You can use a parents ID that above 21 and create a account so you don't have any trouble with age verification.
6. Please be very mature when doing the jig because they are already very aware so you have to make it seem real.

LifeProof/OtterBox Jig (Free Products)

1. Go to <https://www.lifeproof.com/en-us/warranty-claim> / <https://www.otterbox.com/en-us/warranty-claim>
2. Select a Apple case i suggest iPhone X case (sells for the most)
3. Make a random purchase date
4. Fill in your Information correctly
5. Submit the form
6. Your case should be to you in about 1-3 weeks
7. To get multiple cases use different emails and different emails and add a period to the end of your address

Notes*

You can add up to 3 cases per order
Honestly the easiest jig in my opinion

iTunes Jig (Free Apps)

1. Spend up to \$500 on the Apple store (The more the higher the risk of course).
2. Once you have secured whatever you wanted to buy, call Apple.
3. Tell the app store rep that you just checked your statement and saw a bunch of charges on your card from the Apple Store that you did not do. Say something along the lines of "yeah, I left my little brother with our device (iPad, iPhone whatever you guys have). And he was spending money on our linked card without knowing what he is doing. He is just a little kid and I am wondering if we can delete the purchased items on our account or apps or whatever "he" purchased.

The Apple rep will tell you that it is impossible to take away the purchased items, but the rep will offer you a refund because they will understand the situation... DO NOT say exactly what i said. Just say something similar.

Notes*

Purina Jig (\$70 Check)

1. Go to Petco website
2. Search Purina dog food and find a bag that was worth about \$70 (it could be more or less it doesn't matter just make sure its dog food)
3. Get the name of the type of food
4. Go to <https://www.purina.com/contact-us> and tell them that you recently purchased a bag of dog food and it made your dog very sick and he had to go to the vet.
5. They will ask a few simple questions about the type of dog or food but relatively simple questions that you can answer. TYPE IN ALL OF YOUR REAL INFO BECAUSE THE CHECK WILL BE GOING TO THIS ADDRESS/INFO. If they don't they're going to tell you you're going to need to talk to a rep to solve this. They will ask for your # and call you in a few minutes. I suggest doing this at the night time as the workers are more relaxed and lenient. Once they call pick up your phone and ask how they are doing, how was there day, names etc. Make them feel good. Once your done greeting them tell them that you had a friend of yours purchase whatever type of food it was from Petco about a week ago. The friend part comes in handy you will see why. Mention that you work 7 days a week 12 hour shifts so you often don't have time to buy food. Say you paid however much it was. Tell them that you have been feeding your dog purina dog food since he/she was a pup and that although the food is expensive you buy it because your dog likes it very much. Tell them that this time you had a bad experience with the food. Tell them that this time when you fed your dog the food that he/she ate the food like usual but after a hour or 2 they vomited or shitted it out and was crying and was laying on the floor (lol). Tell them that then you took the dog to the vet and they told you that he/she is have serious diarrhea and prescribed your dog metronidazole for a week. Tell them that the prescription was expensive. I doubt they will but if they ask for a receipt tell them that you didn't purchase it your friend did because you work long hours and dont have time to do it. If they ask for a barcode on the bag say that you threw it away because the next day it emitted a awful odor and you or your dog couldn't stand it.
6. The rep should offer you compensation in a check but if they don't after the previous step say all you would like is a reimbursement for the bag as you don't have very much money and had to spend money from your saving account that you were going to use to purchase a car so you don't have to use the bus to go to work everyday on the visit to the pet store (vet, pills, and buy new food). They should offer you a check in the mail and ask for your name and address. Give them the info and your done. Expect check in 2 weeks.

Notes*

Change phone number and IP address

Only do this Jig 2 times per address
Nike Jig (Nike Gift Card)

1. Head to a Nike Outlet or Clearance store.
2. Find a SHOE that is reduced in price very heavily, for example a \$250 shoe reduced to \$100.
3. Once you find a shoe like this purchase it, I highly recommend buying a shoe with Nike Air. This would be something like Vapor Maxes, Airmaxes, & etc. NOT A SHOE LIKE ROSHES OR VAPORFLYS . . . I'll explain why.
4. Once you have bought this shoe, start wearing it for a couple days outside until it looks decently used.
5. OKAY, now i'm going to explain why you want a shoe with AIR, you want to buy a shoe with air so you can pop it!!! AFTER a couple wears hold a lighter to the air bubble until it pops OR slice the air bubble. Make sure it looks like an accident and not done purposely.
6. Once all this has been done, head to: - https://help-us.nikeinc.com/app/eclaim_agree_terms/country_abrev/us/rma_type/Rm9vdHdlYXI=/
7. Fill out all your info and in the "Reason for Return" section state something like "I've been a loyal follower of Nike for years... blah blah blah ... these shoes popped only after 5 wears and i'm extremely disappointed. I can no longer wear these shoes due to not having support due to the popped air bubble. Looking forward to your response" DON'T COPY THIS EXACTLY OR NIKE WILL START CATCHING UP, CHANGE IT UP AND MAKE IT SOUND BELIEVABLE.
8. Once you are done with the form there will be the next page giving you instructions on how to return the shoes for credit. DO NOT SHIP THE SHOES IN THE BOX YOU GOT IT IN BECAUSE IT WILL SHOW THE PRICE THAT YOU BOUGHT IT BEFORE
9. After 1 or 2 weeks you should receive a gift card for the RETAIL amount of the shoe. So if you bought a shoe for \$50 and retail was \$200, you just made \$150 in profit easily.

Notes*

I recommend using this jig only once or twice a month, make sure you use this jig with different IP addresses and different addresses if possible. I've done this multiple times and it works a charm every time.

Gillette Jig (\$45 Visa Gift Card)

1. Head over to <https://gillette.com/en-us/contact-us>
2. You have 3 choice of contact: Live Chat(simple, quick, my favorite method), Email(takes a while so not the best), and phone(quickest but you have to actually talk to someone).
3. Head over to <https://www.amazon.com/> and find an expensive pack of Gillette replacement blades (I recommend doing packs less than \$45 or the jig will be harder to execute).
4. Now, through whichever contact method you choose, say something along the lines of "Hi! So I recently bought your " _____" (item you found on amazon) and I was far from satisfied... i usually love these razors and I actually bought a good amount as gifts for my relatives, but this pack kinda ruined my image of Gillette as a brand. I proceeded to use the blades and they just felt awful. They were kinda rough and I ended up cutting my cheek with a few strokes. Also about 2 days later, I noticed a red itchy rash on my skin. I went back to look at the razors and there was a weird clear liquid on them. I'm really annoyed cause now I wasted \$45 (or whatever the price of the pack was), don't have any razors, and a weird rash on my skin... If there is anything you can do to help I would really appreciate it. Thanks"
5. They may ask for you to ship it back to them so they can inspect it for quality control, but just say you threw it out because you didn't want anything to do with them as the liquid was harmful to your skin>
6. You will get a \$45 prepaid Visa Card mailed to your house within 2 weeks.

Notes*

I recommend doing it only 3 times per address, execute same protocol like other jigs: different names, different story, different IP, different number, etc.

Philips Jig (Free Products)

1. Head over to: <https://www.usa.philips.com/c-w/support-home/support-contact-page.html>
2. Same contact rules apply as Gillette Jig: You can call or chat. Chat is usually busy and you may have to wait a bit. Calling is usually easy if you are good at talking to reps.
3. Once you have picked your choice of contact, tell the Philips rep that your diamond clean toothbrush is broken because it is not powering on anymore. Say you have a lot of Philips products and are very disappointed this one is broken etc...
4. They are going to ask you for a serial/Model Number. Hx9340 is the serial number. 141204 is the Model number. They are now going to try to walk you through the process of troubleshooting (fixing the device). They are going to try and help you restart the device and all that kinda stuff. For everything they tell you to do, tell them you already tried it and it did not work. Just comply with them.
5. They should now tell you that you are getting a replacement within 2-3 weeks. Give them all your legit info (address, phone, etc).

Chipotle Jig (Free Food)

1. Visit <https://www.chipotle.com/email-us>
2. Click "comments + Question"
3. Select "Restaurant Feedback" and proceed to select your country, date of visit, time of visit, and the rest of your legal info.
4. In the message, simply talk about how your recent trip to Chipotle was awful. Say it was too loud, food was bad, etc. DO NOT demand a free burrito or anything like that. Don't be too pushy.
5. They will email you back saying they are going to send you a card for a free meal.

Notes*

You can do this jig as many times as you want. I would recommend doing it once per day.

Trackr Jig (Free Product)

1. Head over to <https://support.thetrackr.com/>

2. Go to Chat Support and click "Chat Now"
3. Put your real email in and send a message that contains SOMETHING like this (not exactly the same): "Hi! I love Trackr. I got a lot of my family members them for christmas but unfortunately the one I kept for myself does not work. It was working for a bit until it stopped pairing with my device. After about a week of it not pairing it eventually just stopped turning on all together". Make it believable, be creative!
4. Similar to Philips they will want you to do some troubleshooting BS. Just tell them that nothing is working and no lights come on/the device never turns on. They then will ask where/when you bought it. Simply say you bought it less than a month ago and it was from Amazon, Staples, Best Buy, Brookstone, or Fry's Electronics. DO NOT SAY AMAZON EVERY TIME.
5. Depending on the rep they may ask you for a receipt. Do not worry if they do. First tell them that you do not have the receipt and try to get them to carry on without it. If they don't budge and say something like this "I'm sorry sir we need proof of purchase or i can't help you" say something along the lines of "oh wait hold on i actually may have it on my computer give me a sec". Now you will have time to create a fake receipt easily. Obviously we cannot all use the same receipt so you will need to figure out how to get one (very easy).
6. They will then ask for a shipping info etc give them your info.

Notes*

Very easy to get

Tile Jig (Free product)

1. First you need to download the tile app on your phone and proceed to sign up for an account. Android/ Apple are both supported. USE AN EMAIL YOU HAVE

ACCESS TOO. You need to verify your email.

2. DO NOT GO DIRECTLY TO LIVE CHAT. This jig requires a few more steps but the extra steps make the jig 10x more successful! Go to the gear icon in the top right corner (settings). Go to "Report Issue" at the bottom of the page. Here is where you will say that the Tile device is not working correctly. Say something along the lines of "I just got my Tile Slim and its not connecting when I try to use pair it with my bluetooth on my phone. I have watched videos on youtube and still cannot figure it out. I would greatly appreciate any help you can give me!". This implies that the device does not work at all. This works almost every time. They may say that they do not see an account linked to your Tile. Say that it's true because you were never able to connect it.
3. It is extremely important you do the first step because the Tile rep will see that you made a Tile account and even reported an issue on the app already. The Tile rep will now go through troubleshooting with you. As always, just say nothing is working to all of these questions.

Notes*

DON'T ship to many to your address they will catch on and you'll get banned.

Energizer Jig (\$40 Check)

1. Head over to: <https://energizer.custhelp.com/>
2. Pick a random battery and say the problem is battery leakage. You will be connect with a rep shortly.

3. New approach to talking to rep (jig specific, best success). ACT CLUELESS. Say that your son or something installed a battery into a remote, car, controller, anything that's IN YOUR HOUSE (you'll see why). Say that when you got home from work (or make up your own story, be creative like always) your son told you that there was a liquid coming from the battery. Say you didn't even know batteries leaked and your very concerned etc.
4. The rep will ask for your name, address, type of battery, pic of battery, pic of device with liquid in it, and receipts for purchases. For the receipt, tell them you don't keep save receipts for small priced items. I have dont this many times and it works every time (the rep kinda just ignores it). If you get an ip-tight rep, just use a fake receipt generator. Send them pics of the battery with water by them. If you don't have batteries, go online and look for a pic (DO THIS BEFORE YOU PICK THE BATTERY SO THEY WILL MATCH). Also send them a pic of the device (remote, or whatever you said was damaged). It is pretty easy to get them to validate the case. Rember act sorta clueless the whole time, don't get impatient! Also, when asked for the price of the damaged device, I recommend saying \$40 or below for best results, if you want to try higher, your case may get escalated and it will be harder to execute the Jig.
5. The rep will tell you that they are going to reimburse you for the cost of the damaged device. They will send you a CHECK, so keep this in mind.

Notes*

DO NOT do this jig more than 5 times to the same address, you will get banned.

Logitech Jig (Free Products)

1. Head over to: https://support.logitech.com/en_us/create-account and create an account and then go to "register product" (account creation optional).
2. I am just going to share how to get a mouse in this situation as base knowledge for

getting any item essentially. Click "Find by serial number" and enter MR-0007. Then enter LZ128NQ as the PID. Say you purchased from any general electronics store (don't want to say a specific one cause then everyone will say it)... Say you purchased any time within 6 months ago. If you have a fake receipt generator, use it to upload a receipt. Also, you can just upload a random pic and later on tell the rep that the item was a gift. I can't share a receipt or it will kill the jig from everyone using it. IMPORTANT: For year of birth, say you are 40 or older. This will gain you more respect for later on. If you say you're 17 or something they're gonna be less lenient with you.

3. Once you have done this, you can either go to "File a warranty Claim" or their live chat https://support.logitech.com/en_us/chat-support (recommended). Tell the chat rep that the mouse (or whatever item you are doing) is not working in some way. Say you love Logitech items, have a bunch, etc and be nice to the rep. They will go through some troubleshooting with you. Simply tell them its not working no matter what (obviously answer their specific Qs). If you have done everything correctly, they will ask for your address. They may also ask for you to send the item back. Most people cannot get past this point but I have consistently used this method over and over and it works 99% of the time: say there is blood on the item or something along the lines of that. BE CREATIVE. MAKE UP YOUR OWN STORY. You can also say that you are injured and have no way to ship it. Again, be creative with this as well. The rep will tell you that you are getting whatever item you are jigging and it will be sent to the address you provide.
4. I explained how to get a mouse. You will need to find your own serial number for the mouse. You will need to find your own serial/ product numbers for different products to register them. You can go on youtube videos, eBay, mercari, offers, etc to find serials. It's not hard at all.

Notes*

Only do this 2 times per address. Also, I recommend not doing items over \$150 retail value as the jig will be harder to execute. Also, have VPN on at all times when on the site and also when doing orders.

Ebates Jig (Free Money)

1. Head over to <https://www.ebates.com/> and create an account. You will get a \$10 Walmart or Ebay credits when you first sign up. Also, download the Ebates extension (will explain later).
2. I'm gonna really briefly explain how Ebates work: simplified, when you buy anything

online, you can get cash back. Yes, that means this whole time when you were buying stuff, you could have been getting cash back... But just getting cash back is lame, right? We're here to make money! That being said, you need to search for stores that offer high cash back %s. I usually do Nike as they offer a full 10% cash back (very high). NOTE: When finding a store, you must be able to easily return the item later (will explain below).

3. After you have found what store you are going to be jigging, order a bunch of stuff. The more you order, the more cash back you are going to get. If you have the funds to drop a lot of money, do it. You MUST make sure that the cash back offer is still active (use the extension mentioned earlier).
4. EXTREMELY IMPORTANT:
Ebates only sends cash back 4 times a year:

Purchases Posted Between	Big Fat Check Sent
Jan 1-Mar 31	May 15
Apr 1-June 30	Aug 15
July 1-Sept 30	Nov 15
Oct 1-Dec 31	Feb 15

Adidas Cart Loop Jig (Cook God)

1. So Adidas used a payment processor called "Ayden". This processor is essentially our worst nightmare when cooking. Ayden rejects "fraudulent payments" which live under a whole umbrella of factors... I found this quo
2. te on another website that uses Ayden: "[Proxies and VPNs are allowed when purchasing, however using them when making online purchases will cause inconsistent

details you provide]". "Our Terms and Services also state that the use of proxies and VPNs will result in the loss of the purchase and you will not be eligible for a refund".

3. Let me try to explain this.... Say you use the same VPN/ Server to make purchases with multiple cards often. When you try to make purchases on Adidas with these cards, you will see more success. HOWEVER, let's say you bought a batch of proxies that are different locations/ locations far from you. Ayden will most likely deny the payments you make while using these proxies... This is why a lot of people don't cook on Adidas and is extremely important info. Solution? If you want to increase the chances of you not getting looped, purchase proxies BEFORE a drop and make some small purchases on them with your card. We will get in to cards below.
4. NEVER USE PAYPAL WHEN GOING FOR MULTIPLES, EVEN IF YOU HAVE MULTIPLE PAYPALS. TRUST.
5. Always have Adidas accounts ready. Making the account on different IPs doesn't matter. When you cart, checkout on an acc. EXTREMELY IMPORTANT: Once you successfully checkout on account, log out of that account, close Adidas webpage, and change your IP to a different location (as mentioned earlier, a location you have made purchases on in the past).
6. MAIN JIG: Use <https://entropay.com/> for cards, and make 1-2 purchases with them (can even be \$1 purchases). Use a different card per checkout. OR use Adidas gift cards. I recommend entropay because if you don't know what you're doing and don't end up cooking, you don't wanna be left with a bunch of Adidas gift cards...

ATC Shopify Jig (Cook God)

Yeezys are used for the example here. This works for most hyped products (Shopify Sites).

1. Go to whatever Shopify site that is dropping yeezys. Find the cheapest product on the site (socks or accessory). Add this product to your cart ONE MINUTE BEFORE THE DROP IF THERE IS CAPTCHA. If there isn't captcha, add the product 10 mins before. Go to the last checkout page for this cheap product. You will be at the screen that says "submit order". Have all of your shipping/ billing info typed in. Leave this tab open!

2. In a completely separate tab, go to the product page for the yeezys. When the yeezys drop, quickly add them to your cart. Once they are in your cart, go back to the CHEAP PRODUCT PAGE TAB. Refresh the cheap product page tab and the yeezys will now be in your cart on that page! Now you just have to type in your remaining credit card info and checkout! NOTE: You can try deleting the cheap product page before submitting order, but that will take time. It's usually best to just buy the cheap product (usually only \$5 or something) and guarantee checking out the yeezy. Once again, this is faster than most bots! Practice makes perfect. Test this out a bit with other products to make sure you have the hang of it!

DHgate Jig (Free Fakes) *I personally haven't done this jig and don't condone it*

1. This works with Aliexpress and other fake sites, but I recommend doing <https://www.dhgate.com/>.
2. When on DH, you can buy whatever fake items you want. Obviously buy the ones you think will sell the best (I haven't sold any so I'm not really sure of the market). Once you have bought the item(s), wait for them to arrive. Don't do anything in-between. When they arrive, contact the seller saying you want a full refund as the items you received are counterfeit and this is BS. Act pretty angry and make up your own story, for example: "I got these for my son and he will get bullied at school if he wears fakes, etc. Sometimes

the seller will just give you a full refund, or they will offer a partial. Say you don't want a partial, and that you want a full. If they don't budge, open up a dispute on your order with DH and say how the items are counterfeit. Send pictures of the item and explain to DH you are really mad about this, etc. They will ALWAYS give you a refund. Right now they are on thin ice with sellers selling fake items, so they are super sympathetic when refunding buyers who bought fake merchandise.

3. The seller may offer you a full refund if you ship the items back. Explain how it is illegal to send counterfeit merchandise in the mail and you don't want to commit a federal offense. DH may ask you to do this too, but tell them the same thing. They will always give you a refund.
4. So now you have your fake items and you're wondering what you're gonna do with them. I wouldn't recommend selling them anywhere on Insta or even locally, even if you say they're fake. You should probably just make an eBay for selling these specifically.

Notes*

You're gonna ruin your rep if you try selling fakes on Insta or locally, even if you say it's fake. It's always best to stay away from fakes, but this is a great way to make money with almost no work. I debated posting this jig as I know we're all against fakes, but in the end, money is money. As long as you're not passing these off as legit, you're fine. Also, this jig will never get patched, so you can easily get a steady income once you get started. I personally don't sell fakes nor have boughten any besides the time I tested this out.

Tide Jig (\$25 Visa Gift Card)

1. Head over to <https://tide.com/en-us/contact-us>
2. You have 3 choice of contact: Live Chat(simple, quick, my favorite method), Email(takes a while so not the best), and phone(quickest but you have to actually talk to someone).
3. Make up a story revolving around the tide pods bursting when in use. If you're feeling greedy, you can say that your child took a bite out of one and he got a cold. You may be able to get more money with this on top of the cost of the pods, but also may have to answer some more questions.

Example: "Hi! I love Tide Pods, despite all the backlash you guys are facing right now... I have been using them for about 5 years, but when I got home from Costco (SAY A

DIFFERENT STORE OR THE JIG WILL END) to use them, the pods were bursted and I got soap all over my hand. All of the pods were ruined and I was left with dirty laundry, and my son had a recital that night so it was a bummer considering he had to wear dirty clothes..."

THAT'S JUST AN EXAMPLE. MAKE UP YOUR OWN STORY.

4. They may ask you certain questions about where you bought the pods or for a receipt etc. Generate a fake receipt or say you threw it about. Problem solve. Tide is dumb and you can give them a pretty BS receipt and they will take it. If they ask for pictures of broken tide pods, find one online. I'm sure someone will end up sending pics of bursted tide pods as well eventually.

Notes*

Change IP location, email, etc, every time you do this jig. You CAN do this multiple times to the same address, just use spaces/ underscores/ slashes in your address when they ask for it.

Moov Now Jig (Free Product)

1. Head over to <https://welcome.moov.cc/support/> and click on their email (support@moov.cc).
2. Simply tell them that your moov is not connecting to your phone or is not turning on correctly. Either one is fine. Make up your own unique story and make the rep feel like you're a good customer of moov (you can say you have bought them previously and loved them, etc). This will obviously increase your chances of the rep giving you a free one. I'd urge everyone to add SOMETHING unique to their specific story. This will increase the durability of the jig considering the fact that moov will not be getting a bunch of identical requests.
3. You should receive a code to enter at checkout. Here is the link you will go to once you have received the link: <https://store.moov.cc/products/moov-now-core?>

[variant=11589953347](#).

4. This is for the device only. If you want a personal, you will need to buy a moov band. Find them on eBay. They're only like \$5.

Chick-Fil-A Jig (Free Food)

1. Go to <https://www.chick-fil-a.com/Contact-Support/Send-Feedback>
2. Once on the page find the "Restaurant Experience" tab and then select continue
3. Fill out the form with your address and other stuff so they can send you a free meal voucher
4. When you reach "transaction number" write something like "threw away the receipt"
5. Down below at the restaurant experience write something similar to the starbucks jig and say something, Just be CREATIVE.

Revenge x Storm Jig (Free Product)

1. During release day go to Revenges website
2. Click the most hyped item and check it out through PAYPAL
3. Once you receive the item send a message to Paypal that the shoes were the wrong color, box damaged, shoes had a tear, or something else
4. Since no one on Revenge x Storm checks their claims Paypal will reimburse you the price you paid
5. Ian Connor makes these "vans" for like \$10 and resells them for \$300 ... don't feel too bad mate lol.

Pacsun Jig (Free Product)

1. Order a pair of jeans online
2. Receive jeans and contact PacSun at 888-746-9146
3. Claim that the jeans were either stolen or never received
4. They will send you another pair in a couple days
5. After receiving the second pair go into a PacSun and return one of the jeans
6. They will give you a gift card according to the price of the jeans
7. You now have a gift card for the original price and a free pair of jeans

Notes*

Can be used many times, make sure to change IP and address IF POSSIBLE

Robot Vacuum Jig (Free Product)

1. Head over to <https://www.bissell.com/> and wait for the chat window to pop up in the lower left part of your screen. Once it does, greet the rep and maybe ask a question like "how was your day" or something like that... After that, tell them that you just tried setting up your robot for the first time, but something weird is happening and it's not working. I said that when I went to turn on the robot the green power light flashes rapidly for like 10 seconds then stopped. You must make up your own excuse as to why the robot isn't working. I recommend going on youtube and seeing how the robot works, then saying how your robot doesn't work in one of those ways. The secret to this jig is getting the rep to think that the problem is not with the battery, but instead the robot itself. The rep will ask you some questions about the battery, and you must emphasize how its working correctly. You can say how you made sure the dock was working and indeed transferring power to the battery. You can even say that you had a friend come over with his fully charged battery/ dock, and the robot still had (your problem you described earlier).
2. The rep will eventually ask for your serial number, a receipt, and when you bought it. When they ask, provide them with this info (that you gathered before doing the jig). If all

of your info is good, the rep will tell you that in order to receive a new unit, they will need to inspect the unit (they're asking for you to ship the robot back to them). I simply told them that my wife literally just threw it away, and proceeded to start complaining and getting super sad... I got lucky with saying this considering the fact that only about 5 minutes had went by, so it is kinda suspicious that she threw it away in that time period... You can use this excuse but of course switch up the wording. You need to act super sad considering the fact you "didn't know" you would have to send it back, and also because you just threw away an expensive item... The rep then should say that they have to receive the unit in order to send you new one, but keep arguing. DON'T TAKE NO FOR AN ANSWER. Unlike other companies, it's not a set-in-stone rule that they have to receive the robot back before sending another one. The rep does have the power to make exceptions and just send you a new one, which leads me to an extremely important point: The rep must "like you" and trust you.

3. After haggling the rep about not being able to ship it back for inspection, they should eventually tell you that since you have the sales receipt, they will go ahead and process the replacement for you. If you get this message, you did the jig successfully. The rep will then send you an email asking for another photo of your receipt/ invoice (make sure it's flawless)! After you send the email, you should receive your robot within a 2 weeks. NOTE: A day after completing the jig, you can go back to the chat and ask if they shipped your robot. They will ask you for your robot, and then tell you that you should receive it within 4-6 days (if the invoice you sent passed their inspection, which it 99% of the time does if the invoice was flawless).

Ebates Jig 2.0 (Free Money)

1. Bank of America is now offering insane %s of cash back on select stores. Simply go to the BOA app and scroll down a bit to the "BANKAMERIDEALS" and look for stores offering high %s back (10%+). Click the + symbol on which ever offer you want to jig, then simply purchase items on that store with your card. This jig is extremely efficient because you can purchase items online from the comfort of your home.
2. Once you have purchased an item, wait the allotted time for the cash back to show up in your bank account. Once you have received your item, simply return it. You will get a full refund on your purchase, and also get to keep the cash back you received earlier.

Notes*

Make sure to read the cash back details below the offer before jiggling a particular store. Some offers have a cash back maximum which sucks, but I believe it's different for people depending on their location. I don't recommend doing more than 10 companies at a time. This jig is great because technically it does not break any rules. You are simply a customer who bought stuff and then decided you didn't want it.

Bacardi Check Jig (\$5 Check)

1. Head over to https://www3.bacardi.com/?session_created=true. Type in a fake age to view the site. Once on the site, scroll down to the contact us button at the bottom of the page and click it.
2. For the topic, select "product quality" . For the description, explain how your drink (whichever one you choose below under "products") tasted off. Just make up any excuse as to how the drink was not of your standard. DO NOT demand compensation or anything like that, and be nice. You also must say that you got rid of the bottle in some way or another. This is extremely important and you will see why later in the jig. I'm not gonna give any specific examples, but you guys are smart, and can come up with something. For the size, it does not matter. For returns, select No. For all info on the bottle, leave blank. For Country, obviously say US, and for place of purchase, just say any retail store. For date of purchase, put no more than ONE MONTH prior to the date you are executing the jig. Type in all your info or info to where the check will be sent.
3. You will get a response from Bacardi pretty much saying that because you threw out the bottle (and therefore cannot inspect it), they will be sending you a \$5 check out of a "goodwill gesture" This jig is extremely fast and simple. I recommend doing it as many times as possible until they deny you. The first time they deny you to the same address,

do not attempt to execute the jig again with that address.

Notes*

Always remember to use different IP locations each time you execute the jig. Also, use different excuses.

Pampers Jig (\$50 Visa Gift Card)

1. Head over <https://www.pampers.com/en-us/contact-us>. You can do Live Chat (easy), or call (email is a waste of time).
2. When talking to a rep, you need to make a good story for this one. I recommend you act like a stay at home mom and you are really struggling for money and spent your last paycheck on a large pack of diapers or something along the lines of that. Don't say that exactly and be creative with the story. This jig is amazing because some of the diapers go for large amounts. I don't want to post any direct links or else everyone will use that, but just know there are very expensive packs on Amazon, etc. I have gotten \$70 prepaids constantly with different stories each time extremely easily.
3. ampers usually does go through a little more questions. You will need to give high quality answers if order to yield large amounts on the prepaids.
4. s always, they most likely will ask for a receipt. You can easily do this by inspecting element on a part Amazon order or use one of the fake generators in useful info. Pampers is EXTRA DUMB and pretty much accepts anything. If you are going for a large amount, I also recommend sending a picture or saying you can send pictures of whatever problem you described so they will believe you even more. Trust is everything with them and if you make them believe that you are truly dissatisfied and annoyed with what happened they are more likely to give you a larger amount of the pre-paid.

Notes*

Always remember to use different IP locations and never ship more than 3 to the same address.

STUN GUN JIG (Free Product)

1. Head over to: <https://www.skylineusainc.com/stun-guns> and pick out one of the Stun Guns (check eBay for best selling if you'd like).
2. Fill in all your info. For the message, you will need to say that when you received your stun gun, it was not working. DO NOT say you had it and it was working for a while, then stopped. You must say the first time you tried using it that it didn't work. Say that not only was the stun gun itself was not doing its job, but also that the light was not turning on. Say that you tried using new batteries as well and even had a friend come over and try to fix it. After you have filled out the message, click "Send Message".
3. This jig is nice because you do not need any serials/ rarely need POP (proof of purchase AKA receipt). You should get an email back asking a few troubleshooting questions (not always). They will tell you to try some basic steps to try to fix the stun gun, but just say nothing is working. Make sure to be polite to the rep considering this is a real person.
4. You then should get an email back saying that they will be sending you a free Stun Gun. They will ask for your info/ address.

Notes*

I wouldn't recommend jigging more than 3 of any products to your house (or just any one address).

Candle Jig (Free Product)

1. Head over to https://www.yankeecandle.com/browse/candles/_/N-9ye and pick out a candle you want. Price doesn't matter with these. Pick whichever candle you want.
2. Once you have your candle ready, you can either email info@yankeecandle.com Or call 1-800-803-6890. When you email/ call you should follow this general format:
Greet the rep and be friendly. This company does not get very many complaints and certainly don't get people being rude. Think about it. Usually people who buy candles are going to be perhaps more laid back and kind, so you should as well. After greeting the rep, you simply need to tell them that the wick(s) were on the the outer circumference of the candle. Tell the rep that you thought the candle would just even out, but only the outside of the candle burned. Emphasize how you are disappointed, etc. You can also say that the candle had an extremely odd scent, nothing like it has been before. Say how it is your "go-to" candle, so you didn't bother smelling it before purchasing it. I have had success with both of these stores.
3. The rep should then give you a code to get a free candle.

Notes*

Just remember to use different IP locations when emailing and different numbers when calling.

Marlboros Cigarette Jig (\$50 Visa Gift Card)

1. You will first need to call the number: 1-800-898-2888 (Open mon-fri 9am-10pm est & sat-sun 9am-5pm est). This is the Marlboro customer support phone number. When you call, you should be directed to an operator. Tell the operator that you are calling about the company Marlboro. You then should get directed to an automated machine. Choose the option QUALITY CONTROL when asked.
2. You now should be re-directed to a rep. There is many things that you can tell the rep. I have lots of success with saying this: "I purchased a CARTON (don't say pack) of cigarettes and they cigs were extremely stale. I've gone through a lot of cartons in my day and I was really surprised to get a stale carton. I tried to just suck it up and smoke them but they were honestly so stale that I couldn't even generate a puff". You can say whichever store you'd like, but saying you bought the carton at Walmart will reap high success because a lot of time they do not allow people to return opened cartons. Emphasize how you can't get your money back and are now stuff with a carton of stale cigs...
3. The rep will ask you some general questions about the cigs/ carton. It should be pretty obvious how to reply: Just speak negative about all the things they are asking you about. It may help to have an image of a cig/ carton too.
4. The hard part about this jig is that it does require you to verify that you are 21. I recommend just having an ID that is 21+ in front of you in case they ask you questions regarding your age. Sometimes they don't ask questions, but it's always better to play it safe.

5. After all the rep's questions, they should ask you how much you paid for the carton. Tell them any amount over \$50, but nothing more than \$100. They then should ask for your address to ship the prepaid. The prepaid then should arrive in no later than 3 weeks.

Notes*

If you want to do this multiple times, use <https://www.firerc.com/> to call (make multiple accounts). You should be able to do this 2-3 times to the same address.

Corsair Cooling fan Jig (Free Product)

1. Head over to <http://support.corsair.com/> and create an account.
2. Contact them and say that your fan suddenly stopped working out of nowhere. Say you have used it for no more than 6 months (up to 6 months). Say you have tried putting it on the other sockets (use different word for better success) on your motherboard and it is still not working. Say you went so far to have your friend come over and try to install the fan on his computer to make sure it's not a problem with your computer, but still no luck. I also recommend saying you've been saving up for this for a while (or something along the lines of that). Make it seem like this was a big purchase for you.
3. They will usually only ask for POP (proof of purchase) in order to process your free fan. Create a fake receipt for this. You can just inspect element on an old amazon order. Use this link for a reference: https://www.amazon.com/Corsair-Radiator-Advanced-Lighting-CW-9060031-WW/dp/B077FZPCRH/ref=sr_1_1?ie=UTF8&qid=1518142831&sr=8-1&keywords=corsair+h150i+pro+rgb+360mm.
4. This is rare, but sometimes they may ask you to send back the fan in order to finish your request. If they request you to send it back, say that you talked to a rep yesterday or a few days ago and they said you could just dispose of it. They 99% of the time do not check this, so it's almost guaranteed success. You will of course fail every once in a while though. Remember, persistence is key.

Notes*

I don't recommend trying to do other products on this site. Much harder, you need way more verification, and they take it much more seriously.

Muscle Milk Jig (\$X Check)

1. Head over to <http://www.muscle milk.com/contact-us/>
2. Fill in all your info and in the message say something along the lines of "Hey! I recently purchased a jug of muscle milk protein powder. When I got home, I opened the jug and the powder seemed to be oddly moist. It was also a tad discolored from what it usually is (I use a pretty good amount of these every month...). I'm a little discouraged by this as I have a set amount of funds each month to purchase the powder... If there is anything you can do to help, I will definitely continue to keep buying this powder! Thanks!
3. They will email you back asking for proof of purchase and most likely ask for the numbers on the bottom of the jug. Use fake receipt gen for whatever store you are going to say you bought it from. They may also ask for pics of the powder, so simply find some online. If they ask for numbers on the bottom of the jug (usually), you will need to go to the store or search your house for this (I know, it's kinda a pain, but hang with me). You can always search on eBay/ youtube/ etc for these numbers as well. A strategy that I would recommend is to go on eBay/ other selling sites and ask sellers for a picture of the numbers. Say something along the lines of "Hey. I'm just about to buy your muscle milk powder but I just want to make sure that it's not expired... If you could just send me a picture of the bottom of the jug, I will gladly buy it now. Thanks!" I guarantee there won't be many people asking this on eBay so sellers shouldn't be hesitate to provide you with photos.
4. After you provide all this info to muscle milk, they will reply saying that they are going to be sending you a check of X amount in the mail.

Notes*

I recommend picking jugs of powder that go for larger amounts as this will yield a higher

check for you. Same as always, don't do this more than 3 times to 1 address. Also always use different VPN, email, all that good stuff.

Sidekick Remote Jig (Free Product)

1. Head over to: <http://www.sideclickremotes.com/> and click "Contact Us" at the top. Fill in your name/ email. For the message, I am not going to give a specific example because this will decrease durability of jig due to all subjects being the same. Just put something along the lines of "broken product" or "defective product" . In the message, simple say how you just orders "X" (the product you are jigging) and right when I got it, it was not working. Obviously plump up the message and convince them that you tried getting it to work, but it still won't.
2. You'll get an email back with a few simple troubleshooting questions, and like always, just say how nothing is working. You can always PM me for help as well if you don't know how to answer. After you respond, they will ask you for your address and send you a free product (whichever one you are inquiring about). It's that simple. No serials, no receipts, no nothing.

Notes*

Use a different VPN location and email for each execution of this jig.

BOOM Speaker Jig (Free Product)

1. Head over to <https://www.ultimateears.com/en-gb/support> and go to Contact Support. Type in all your normal info and pick the speaker you want on the "choose speaker" section. As always, the more expensive the speaker, the harder it may be. I have had most success with the "Boom 2". In the message part, make up something revolving around how the speaker isn't working. I do have a tip that can help to increase success I will incorporate into this example:
2. "Hey! I recently purchased a (name of speaker) and for some reason it does not seem to be working. It doesn't connect to my phone or others (make up your own excuse), blah blah blah. I am actually a youtuber with almost 10k subs who reviews products like this and I was really looking forward to giving a great review on this, but I'm not so sure now. I'd really appreciate if we could get this figured out so that I can do the review and recommend the speaker to my youtube subscribers. Thank you so much!"
3. You are also going to want to have the serial number readily available (it is on the bottom of the speaker// just serial hunt (ask people for photos) on eBay/ let, mercari, craigslist, google images, Bing images, etc).
4. So over the time of me doing this I've realized that they take a while to respond to email... I recommend you simply call them to speed up the process. When you'll them, they will ask for a case number. You will have this because you already opened the case on their website. They will go over some BS troubleshooting stuff with you and like always, just say nothing is working. They sometimes will ask for a photo of the speaker (depends on the rep). You can either try to get a photo or just say it randomly started working and try again with a different rep. Once you do this once though, you will have a photo to manipulate for future orders. You don't have to call, but it does speed up the process and therefor makes it useful.
5. should get an email back from UE after the call saying some stuff about the case. After this email, you should get another email saying they will be shipping out your speaker. I

also don't recommend you keep nagging them over the phone to ship it or they make start questioning you for more information.

Notes*

Basic jig etiquette applies (VPN, not more than 3 to the same address, etc). You also will need to call on a different number each time.

Selfie Stick Jig (Free Product)

1. Head over to <http://myretrak.com/contact.aspx>. In this jig, you can either do a bluetooth selfie stick or a wired one. Doing either one will NOT result in higher/ lower success. Do whichever one you want and of course consider profits/ your market. Like usual, type in info that you can access (real email). Also for the "Inquiry" section click "Customer Service".
2. If you're jigging a bluetooth stick, your general excuse should be "My bluetooth selfie stick is not connecting to my phone. I have attempted to sync it many times, but I'm still not getting it to work". The rep will then go through some troubleshoot questions with you, and like always, act like nothing is working. Make it seem like you actually have the product in front of you. Add extra things in when talking that will convince the rep that you are genuinely frustrated that the stick is not connecting, etc.
3. After troubleshooting, they should ask for an address to ship your free selfie stick. If you're shipping to your house, obviously give them your address. I recommend shipping one to your house at first so that you can have one to take pictures of for future jigging. They will also ask for a picture of the stick. Simply find one on images, eBay, craigslist, let, mercari, youtube, kijiji, etc. The reason I say to send one to your house first is because sometimes, depending on the rep, they will ask for specific tagged pictures. It usually doesn't happen, but has happened to me a few times.
4. The beauty of this is that it is extremely safe and simple. They will never ask you to send back the selfie stick because it literally is cheaper than the cost of shipping itself. The stick is also known to have malfunctions, making it a high success rate jig. After you have given them a picture of the stick and the address they should send you a tracking number within a few days.

Swingline Stapler Jig (Free Product)

1. Head over to <https://www.swingline.com/us/us/home>. You can either call or fill out the form (click "Contact by Email"). Calling will obviously be quicker, but make sure to read the whole jig so you're prepared.
2. You will need to acquire a serial number first. Simply go on eBay/ craigslist/ letgo/ mercury/ images/ etc to find one. If you can't find one right away, simply ask the seller for a photo of the serial to "make sure it's authentic". Make sure the serial matches the specific model of the stapler. You will also need a receipt most of the time (sometimes a rep won't ask you).
3. Once you have serial/ POP (proof of purchase) ready, you will be ready to send the message (or call). For contact type, click "Warranty". For the product name, type in the product name. For date of purchase, put no more than 2 months ago. For comments, simply tell them that upon receiving your stapler, it didn't seem to be working. DO NOT say you used it for a month or two, then it stopped working. Say that it wasn't working straight out of the box or within 3 days of you reaching it. Some examples for the stapler not working are: The stapler is jammed. (If you're doing an electric stapler) The stapler is malfunctioning and not producing any staples
4. The rep will respond back asking some basic troubleshooting questions. Simply answer them in a fashion that implies the stapler still isn't working. Always say how whatever they told you to do didn't work, and the stapler still doesn't work. Of course use your own words when talking to the rep.

Notes*

This jig does take a while (emailing back and forth), but is definitely worth it.

Ninety7 Speaker Jig (Free Product)

1. Head over to <https://ninety7life.com/> and go to "Contact Us".
2. Fill out all your info. In the message, simply say how when you received your speaker (pick anyone on the site) it wasn't working. You can say how it wasn't connecting to your device, how the sound was muffled, or anything along the lines of that. Make sure to make your own narrative and make everything sound believable.
3. They should respond back to your email asking for a receipt and some troubleshooting questions (they don't always ask, it really depends on the rep). If they do ask you questions, simply answer them like you would with any other jig: say nothing is working. For your receipt, simply send a fake Amazon invoice.
4. After sending a receipt, they should ask you for your shipping address. This jig is short because it truly is easy.

Notes*

Always remember to use different emails/ IPs when executing the jig. I also don't recommend sending more than 3 to the same address.

Bo Vape Starter Kit Jig (Free Product)

1. Head over to <https://bovaping.co/contact/> and go to customer support. Type in all your info.
2. Message: (do not copy exactly of course // use a different vape instead of JUUL)
"Hi! I recently purchased a Bo Starter kit for myself. I had a juul but I didn't really like it and a lot of my friends have the Bo starter kit so I decided to give it a shot. Unfortunately when I tried using it, I noticed the battery was leaking acid(or some fluid, not exactly sure if it's acid or not). I showed my friends and they suggested I should just throw it out because it's a safety hazard, so I went ahead and got rid of it. I was going to buy a new one because I really want one of these but I figured I would contact you guys first to see if there was any way you guys could make it right. Thank you so much!"
3. They should not ask for a receipt, but if they do, simply generate a fake one. There also will not ask for a serial number. They may ask you for a picture of the device leaking (probably not, they usually just give a free one out with no problem), so you would simply have to find a used one and then either just send that one (less success since there is no actual proof of leaking) or for increased success, photoshop some liquid near the device (if you don't know how to use photoshop, I'm sure someone in market would offer to do it).

Notes*

Always make sure to have a different IP location on each time you execute the jig.

Ventev Jig (Free Products)

1. Head over to <https://mobileaccessories.ventev.com/> and pick out an item you want. After this, click support, then warranty.
2. Fill in all your info. Type in the name of the product you are jigging, and for quantity, put no more than 5. For the message, simply say how when you received your product (whichever one you are jigging), it didn't see to be working. Say how it wasn't working the first time you tried using it, and even had a friend come over (who has one) to try to help you fix it, but he couldn't. For date of occurrence, put the current date. For purchase date, put no more than 1 month ago from the date you are executing the jig. Put "Online Retailer" for purchase location. Put Apple for Phone/ Table Manufacturer. Instead of waiting for them to ask for a receipt, simply send them a fake Amazon invoice by clicking the "Choose File" button.
3. After your submission is sent, they should reply back asking a few troubleshooting questions (and may ask for a photo of the device). Simply reply back saying how none of the steps worked, and the device still doesn't work. If they ask for a photo, get one on ebay. Make sure you send a photo of the device you are jigging, and not just a random vented product.
4. The rep then should ask for your shipping info. From here, you have successfully completed the jig.

Notes*

Always make sure to use different IP locations/ emails each time you execute the jig. Also, don't execute the jig more than 3 times to 1 address. This means you could jig 12 products if you do 4, 3 times.

Drone Jig (Free Product)

1. Head over to <https://www.amazon.com/> and pick out a drone you want. I recommend doing one less than \$200. The more expensive the drone, the less likely the jig is to work. I also recommended buying a drone that is Prime supported (you'll see why later).
2. Once your drone arrives, feel free to use it however you want. After no more than 3 days of your drone arriving, write a handwritten letter something along the lines of this:
3. "Hi. I got my drone (name of drone) 3 days ago (or 1 or 2), and I loved it. I'm really sad though because I was flying it today on a sunny day with (you can say your friend, dad, etc) and it randomly just started veering right. I got pretty good with the controls and tried everything I could to make it stop veering right, but it didn't. It started veering right pretty high up, and eventually just went it to a forest. I tried looking for it for hours but I still cant find it. I'm convinced that there was something wrong with the controller/ drone. I'm wondering if you can please refund me for the drone so I can buy a different model from you guys. Thank you".
4. Remember to not say that exactly. Use your own writing style (syntax/ diction). Add your own details so your hand written note is unique. You should also include your name/ order number somewhere in the note.
5. Once you have your note written, put it in the drone box and ship it back to Amazon. Yes, that means you need to save the drone box upon receiving it. They will see the note and 99% of the time give you a refund with no questions asked.

Notes*

I recommend waiting a month or 2 before doing this to the same address. I wouldn't do it more than 5 times to the same address as well.

Amazon Gift Card Jig (Double Balance)

1. Head over to <https://www.amazon.com/> and search "e gift card". Purchase a card (I recommend purchasing less than \$50). Make sure you are on a Prime Account (google Amazon Prime Free Trial if you don't have one already).
2. Once you have bought your card and it has arrived to your email, spend the balance immediately. I recommend planning out what you want to buy before hand. Once you have spent the balance, log out of that account and turn on a VPN. Once your VPN is on and running (your IP has successfully been changed), log in another Amazon account. On this account, head over to Amazon Live Chat.
3. Once in the chat, tell the rep that you purchased an Amazon Gift Card at (any retailer that sells them, use google) and that it is not working because the last 4 digits were scratched off. Tell them the balance of the card (the balance on the card you bought earlier). Say how you didn't check the card beforehand so you didn't see the scratched off numbers. The rep should ask you for the digits you can see on the card, so just give them the first 10 digits of the card you bought earlier. They will verify that it is a legitimate card and that it matches up with the balance you told them. You can tell them that you needed this gift card to purchase something as a gift for someone, or something like that. The rep will tell you to contact the store for help and that they can't help you. Tell the rep that you tried doing that and even talked to the manager, but he said there was nothing they can do. Tell the rep he said to go on Amazon Live Chat Support, and they would take care of you. The rep will talk with you for a bit (it's not the same convo every time). Just tell them that you would like a gift card with the same balance because you really need this as a gift or for whatever reason you told them earlier. **DO NOT TAKE NO FOR AN ANSWER.** Amazon has some of the best customer service in the game, and always want to make the customer happy. They will 99% of the time give you a new gift card. They will simply ask for your email/ give you a new card in the chat.
4. After you get the new card, spend it immediately and log out of the account. You now have successfully doubled your Amazon Gift Card.

Notes*

Use new accounts each time you complete this jig. When making new accounts, be on a different IP location each time. Make all (address, name, email, etc info in the accounts fake. You aren't shipping anything to your house, so it doesn't matter. Use entropay cards/ privacy if possible for new accounts as well. I recommend doing cards no more

than \$50, but if you're feeling lucky, you can try for more.

Rhino Shield Case Jig (Free Product)

1. Head over to <https://rhinoshield.io/> and pick out a case you want to jig.
2. Once you have a case picked out, head over to <https://support.rhinoshield.io/hc/en-us/requests/new>. Enter your info. Select "Warranty Support". Select Amazon for "Purchased From". Select the product category that corresponds with the case you are jiggling. Select the model you want to jig. For Subject, put anything you want. For the summary, follow this format:
3. Say when you bought the case (no more than a month ago from today's date) and how you just got it today. Also say the name of the case.
4. Describe a problem with the case. I usually say that there was a crack on the plastic part of the case (about an eighth of an inch) and how I tried to such it up and deal with it, but the crack got worse when I put the case on my phone.
5. Say how you just went ahead and threw the case away (in your own words).
6. For this jig, say how you would really appreciate a replacement case (spice it up. Ex: My family/ friends has these cases and I want to have one as well really badly, etc). Tip: You can compliment the design of the case or anything like that to show you "like" the company.
7. They will email you back saying they are glad to help you with the warranty, etc. They will also ask for a picture of the cracked case. Email them back saying how you already mentioned that you threw the case away, so you are not able to send a photo of the case. Be nice about it though. You can say something like "I'm sorry for being unaware that you would need photos... If there is still anything you could do to help I would be really thankful".
8. They will email you back saying how they usually require picture evidence to process any warranty claims (" We typically do require pictures of evidence of the issues for all warranty replacements. Please do remember that for future purposes"). However, below that, they will say: "With that being said, we are happy to offer you an exception this time and send you a free replacement. We just ask you to cover the standard shipping + handling fees as per our lifetime policy". Once you get this email, you have successfully completed the jig.

Notes*

Always make sure to use different IP locations/ emails each time you execute the jig. Also, send a max of 3 to the same address each time.

Lifx LED Light Strip Jig (Free Product)

1. Head over to <https://www.lifx.com/> and click "support" at the top.
2. Click "Warranty Replacement Support". Click Start. Click your country. Click J or the LED light strips. Type in all your info/ eBay buyers info. Click "Online Retailer". Click "3-6 months ago". Type in 5 or more for "lights you own". I recommend typing 1 for "how many lights you want to exchange or return", but you can do more. The more lights you try to jig, the harder the jig will be to execute, like always. I wouldn't really do more than 4. Find a serial number on youtube/ eBay/ craigslist/ letgo/ mercari/ images/ offers/ etc. The serial is located "on the back of the controller on the physical product". Click IOS or android, whichever you have. For "What's going on", you simply will tell them how these lights were working for a while, but then stopped. You will need to make up an excuse regarding what's wrong with the lights. Examples: The lights flicker on and off when turned on/ the lights don't turn on at all anymore. The lights make a really loud high pitched noise when turned on/ 3 or 4 of the individual lights are different colors than the rest/ etc. You can say one of those are make up your own excuse. You will then need to say that you just went ahead and threw the lights away for whatever reason, like you are getting super frustrated or something like that. Of course make it sound believable and emphasize how you are upset. Don't be too rude though. You can add to your message that you spent hours trying to fix them watching youtube videos/ having friends help, etc. Just spice up your message and make it unique.
3. You will get different responses (emails back) depending on the rep. The rep usually will say something like: "You got rid of them instead of returning them to where you bought them from?". Just say that you tried contacting Amazon to return the, but for some reason they wouldn't take them back. The rep will talk with you for a bit, so just go along with it. Make sure to keep acting upset and emphasize how you really wish you had these lights because they were great when they worked.
4. After emailing the rep back and forth for a bit, the rep should eventually ask for you shipping address. Do not take no for an answer from reps here. Answer all the questions that they may ask (proof of purchase perhaps, etc). hey almost always will send you a free strip of lights, you just have to keep trying. There will of course be the occasional rep that just isn't going to send them though, so know when to stop. If they say there is no way they can send you a strip, maybe send one more message back asking again, and then just stop if they still don't budge.

Notes*

Always make sure to use different IP locations/ emails each time you execute.

LULULEMON JIG (Free Products)

1. First off, you will need to either call, or email lulu.
2. Whether you are calling or emailing, tell them that about 2 weeks ago, you bought a sweatshirt and are very disappointed because you were lied to at the store. Tell them that you really wanted a WATERPROOF jacket, so you got help from a rep and he recommended you to a waterproof jacket. Say you went on a rainy hike with your family and it was light rain and the jacket did not hold up well at all. Tell them you got super cold and wet and you are extremely mad about this. Tell them you only get to see your family once every 3 years, and you wanted to wear your new lulu jacket, but your whole day was ruined because the rep lied to you and the jacket was not even close to being waterproof.
3. Of course you will need to really sell this and make it seem like you are really mad and stuff. Say you threw away the receipt btw because they will just tell you to return it at first. The lulu rep will tell you that they can offer you a gift card most likely. If you really want to get a lot of free lulu, tell them you got hypothermia or something and even had to go to the hospital and demand a gift card or store credit or something.

Fish Tank/Check Jig (Free Product/Money)

1. Head over to <http://www.tetra-fish.com/contact-us.aspx> and type in all your real info.
2. There is essentially 2 ways you can treat this jig. You can either go for an X amount check or for a small fish tank.
3. For the (X amount) check, you will need to say that you purchased one of the larger, more expensive tanks. <http://www.tetra-fish.com/Products/Aquarium-Kits.aspx> has all the tanks on it. Saying you have a 50 gallon + tank will yield the highest amount on the check, but will be harder to execute. Saying you have 1-9 gallons will result in you simply getting one of those tanks for free. I personally have not done the middle amounts so feel free to experiment with those and get jiggy with it. In the question space, there are many things you can say. I am going to give 2 ideas that I have been successful with, but if you want to have more success, you will need to make up your own excuse. Regarding the 2 parts to this jig, you can use the excuses for either. Always remember that more creativity in your excuse = higher chance of being successful with the jig/ higher amount of check.
4. Example 1: "Hello! So I own about 4 Tetra tanks but when I ordered one about a month ago, I noticed a tiny crack in the tank. I didn't really think anything of it as I thought the quality of the glass would hold up, but I was wrong... It's currently cracked pretty badly now and one of my fish somehow managed to escape in the crack and ended up dying. I'm really mortified and hope we can figure this out".
5. Example 2: "Hi. About a week ago I received my (name of tank). I had guest coming over and wanted to have my fish all nice and ready to display so I didn't really look over the tank that carefully as I was in a rush. I really wish I would have though... I woke last night to the sound of water droplets near the tank. I quickly realized that the tank had a large crack in it. Luckily I noticed this early so my fish didn't escape and die, but I am still disappointed that the tank is now useless to me. I would try to get it repaired but I honestly don't have the money right now... If there is anyways you can help me I would be very very grateful. Thanks so much."
6. DO NOT COPY ANYTHING ABOVE WORD FOR WORD. USE YOUR OWN SYNTAX/ DICTION. THE JIG WILL DIE FAST IF YOU COPY EXACTLY.
7. Most Tetra reps will reply back asking for a picture of the tank and POP (proof of purchase aka receipt). You have a few options when they do this. I usually like to try to get out of sending them anything, so I make up an excuse something along the lines of "Unfortunately I cannot send a picture of the tank because the glass shattered so badly that I felt like it was a safety hazard for my child. I ended up calling my husband to get it thrown away. Although I don't have a picture of the tank, I do have the receipt." You can simply inspect element on a past Amazon order and add a picture of whatever tank you choose in the picture area. ONCE AGAIN, DON'T SAY EXACTLY WHAT I SAID ABOVE.

8. They are going to say some BS back like "since you don't have a picture of the receipt, there is nothing we can really do. Sorry!". So, should we stop here? Hell no. Respond with something along the lines of "I understand that may be the policy, but like I told you before, the glass was shattered so I had to dispose of it. I do have kids and having sharp glass anywhere near them would obviously be very dangerous...". If you are doing a small tank, they should respond saying that they are going to send you the tank again for free. They also will offer to send around \$40 instead (price of average 20 gallons tank). You can choose either one. They will also ask for the receipt to "check it in their system". Well, they don't "check anything". Like mentioned earlier use the links #useful-info to generate a receipt. They will pretty much accept anything you give them, just make it somewhat believable...
9. If you're rep is extra anal and says you HAVE to send a picture of the tank, say something like "okay, I just got it out of the trash" and then find a picture of one on ebay. Images. Letgo, craigslist, etc. Of course it needs to be cracked.
10. After you send the receipt, they should reply back saying that they are shipping you a check or tank (whichever you choose).

Notes*

Do not do this more than 3 times to the same address. Always have different IP location on.

Wish Jig (Free Product)

1. So this Jig is going to be very broad and open to much experimentation. There is an app called "Wish" which is essentially a place where bulk sellers can dump their god awful products that don't sell/ are defected.
2. With this jig, you will simply order an item (mainly electronic) and then come with any, literally any, excuse as to why its not working. I have done LED lights and a hoverboard. For the LED light strips, I said 3/4 of the strips weren't working. For the overboard, I said it was not advertised correctly. It said it could go 15 mph in the description, but I said I measured it (lol) and it only went 11. You can kinda understand how easy it is to jig anything on this app... You simply have to open a claim complaint on the app. Simply say that whatever item you ordered was defected (in some way, obviously I can't give an example because there are so many products) or falsely advertised. I recommend doing cheaper items as they will be taken less seriously. There is NO LIMIT to how many times you can do this, just make sure to make a new account for each time.
3. I understand this is very broad and not very specific, but thats the point. Be creative and experiment with whatever products you want. The beauty of this jig is that if for some reason you are not able to get a refund, simply return the item for free.

Notes*

I don't recommend doing products over \$100. Use a new account each time you execute the jig. Multiple cards are not needed.

Chipotle 2.0 Jig (Free Food)

1. Go to Chipotle and get whatever you want.
2. At the counter when you are paying give them a \$100 bill. They recently just stopped accepting \$100 bills at many locations. They should tell you not to worry about it and enjoy the burrito for free and apologize for the charge.
3. This of course won't work at every location. To save time you can call and ask if they accept \$100 bills. If they aren't, then you have a good chance at getting a free burrito. Of course this isn't a guarantee. But I have been successful with this at 3 locations now.

Yeezys Supply Bypass Jig

1. Go to <https://yeezysupply.com/>
2. Add any item to cart, any size
3. Checkout and get to the last page. Fill in your information correctly.
4. On the last page it should say "Complete Order"
5. Bookmark this page by clicking the star in the top right corner and name it "Bypass"
6. Remove the item from your cart by going back to <https://yeezysupply.com/>, clicking the cart and pressing the X.

Drop Day Procedure

1. When its drop day, when yeezy supply goes live you may be a little late to checkout. It should say "waiting in line to Purchase".
2. Click on the bookmark and you'll have the shoe at the "Complete Order Page" and you can just complete order, thus bypassing the queue.

Portable Charger Jig (Free Product)

1. Head over to <https://getonhand.com/> and go to "Portable Power" or "Nylon Cables". Pick out whichever you want.
2. After you have picked out what you want, open up email. Your gonna be sending an email to: customerservice@getonhand.com in this email, say something along the lines of how you purchased "x" item roughly a week ago and it just arrived today: say how you noticed it was not working/charging. Say how you tinkered around with it more and tried to watch youtube videos on how to get it to work on, but still couldn't figure it out.
3. Here is an example of my words (DO NOT USE EXACTLY WHAT I SAID, USE YOUR OWN WORDS. THIS IS JUST A GENERAL TEMPLATE).
4. Hi my name is Bob and I purchased your higher capacity portable power stick about 2 weeks ago. When I received it, it did not seem to be working at all. I tried charging it from multiple USB's and even had my buddy come over and try to help me fix it, but it still isn't working. This was a gift for my wife for her 30th birthday and i'm wondering if there is any way i could get a replacement. If not, i understand. They are pretty cheap, so I could buy a new one, but it would of course be nice to receive one as my current one doesn't work.
5. You should get an email like this
 Hi Bob,
 Sorry to hear about what happened to your power stick. The one thing we would like to try before replacing would be to charge with the provided USB cable from a wall adapter, and when you go charge your phone, press the power button on the side before plunging into the phone. Sometimes the battery needs to be woken up. Could you try that and get back to us?
 Thanks
 Onhand Team
6. After you receive this email, respond with something like this
 Hi, Thanks so much for your quick response. I just tried that about 10 times and even moved the cable around more, and it's still not working...
7. The rep will then ask for your shipping address to ship your item for free. IT'S THAT EASY. Absolutely no serials, receipts, anything. These dont sell for much but you literally have to send 3 short emails to execute the Jig. The reps also respond relatively quick as well so that's a plus.

Night Cable Jig (Free Product)

1. Head over to <https://www.nativeunion.com/night-cable> and then scroll down to the bottom of the page to the "contact us" section. Click " Customer service". Chose any of the three choices of contact. This jig is nice because there is a live chat option:)
2. In the Live Chat (or phone, email) say how your cable is not working. Say that the FIRST TIME you tried using it, it did not work. Do not say that you used it for a while, then it stopped working. Make sure to greet the rep and be nice to them, etc. They will then go over some basic troubleshooting steps with you. Like always, say how nothing is working. Make sure to act like you really have the cord in front of you.
3. So this jig used to be impossible because they require you to ship the cable back in order to get a replacement. They now (99% of the time, sometimes they will just send another one for free or ask for a different picture) simply ask for a photo of a cord cut in half. You can easily look up a photo of one of these cords, then just photoshop the cord to look cut in half. Don't worry though... The photoshop doesn't need to be great. I've sent god awful pics and still gotten through.
4. Once you send the pic, you should get an email back saying that they should be sending you a free cord.

PSN Jig (\$10)

1. Head over to <https://www.playstation.com/en-us/corporate/contactus/> and go to Live

- Chat. Type in your info. Click "PS4" and "Other".
2. Once in chat, greet the rep and be extremely nice. Make sure to sound very professional throughout your messages. Tell the rep that you recently (anytime within 3 months) bought your son/daughter a PSN pass (any month) and that you're extremely disappointed. Tell them that your child received extremely vulgar messages from other players, he/ your wife/ husband was really upset. Ask if there is any way they can make it right (in your own words). The rep will talk with you for a bit and eventually "transfer you to a higher authority" that deals with compensation.
 3. Once your with the new agent (in the same live chat) continue explaining to him your problem. Make sure to ask for some type of compensation as well. The agent will eventually offer you a \$5 PSN code. We are going to get more than that though. Tell the rep you would like a \$15 (or say \$20, \$30, \$40, etc so we all don't say the same thing) and would be super grateful if you could get one. The rep will then tell you that the best he can offer is a \$10 PSN credit code. Once he gives you the code, thank the rep and exit the Live Chat.

Keurig Jig
